

Sustainability Support Services (Europe) AB

ISO Certified Chemical Regulatory Compliance Services & Solutions

30th April, 2015

It gives us immense pleasure to inform you that **SSS Services** has now been **ACCREDITED within the ISO System for REACH Regulatory Compliance** and it is one of its kind to the best of our knowledge. **REACH Support (now NSSF Pvt. Ltd.)** is now a **CERTIFIED BODY** for chemical regulations.

REACH Support, functioning as the technical support centre to SSS, which began its journey primarily as a **helpdesk** for REACH regulation compliance has now been awarded the coveted accreditation by the **National Accreditation Board for Certification Bodies (NABCB)** of the **Quality Council of India (QCI), Ministry of Commerce.**

We now offer **ISO 17020 accredited regulatory services** in the following areas:

- Late Pre-registration (LPR) within REACH.
- Safety Data Sheet (SDS) & extended Safety Data Sheet (e-SDS).
- Classification, Labelling & Packaging (CLP) requirements.
- Lead Dossier.
- Member Dossier.
- Substances of Very High Concern (SVHC): Substances & Articles
- REACH Compliance Status Certificate for Pre-registered Substance & Registered Substance.

This is a one of its kind achievement as there is no other organization to our knowledge that is accredited for chemical regulatory services. This quality system imparts a more systematic approach to the regulatory compliance services for providing accurate, timely and quality services to SSS clients.

The journey was tough; as was our commitment towards successful award of this accreditation. We shall now move ahead with greater enthusiasm and would like to **thank you for your valued association and cooperation** with us for the past so many years and assure you that we shall continue our quest of offering quality services to all our client companies in future too.
